

BREAST CANCER MYTH **BUST**ERS

Thursday, October 22

6:00 p.m. – 7:30 p.m.

The Cancer Center, North Florida Regional Healthcare

Serving Beverages and Hors d'oeuvres. Please RSVP by October 20 by calling 1-800-611-6913.

Most women with breast cancer have a family history. Myth or Fact? The most effective form of diagnostic imaging for breast cancer is 3D Mammography. Myth or Fact? Breast cancer patients should choose mastectomy over lumpectomy. Myth or Fact? Not sure?

Join us for a special program at The Cancer Center on the campus of North Florida Regional Medical Center. Some of our community's leading physicians will set the record straight and **BUST** myths that get in the way of risk reduction, early detection and effective treatment.
